Super Talent's patented PICO USB drives pack huge capacitances into a tiny case. Half the size of an SD card, each PICO drive is smaller than the plug at the end of a USB cable! But tiny does not have to mean fragile or slow. Encased in a sleek and solid metal housing, no-compromise PICO drives are shock- and water-resistant to hold up under harsh conditions. And we didn't forget to include zippy 200x transfer speeds.
