

INLINE® BLUETOOTH 5.3 USB ADAPTER

- **Bluetooth 5.3 standard** for stable connections and higher transfer rates
- **Data transfer at up to 3 Mb/s** with a range of up to **20 meters**
- Supports numerous Bluetooth profiles for audio, data and network
- **Driverless plug-and-play** for Windows 8.1, 10 and 11
- Ideal **for professional use** in IT-supported work environments

The **InLine® Bluetooth 5.3 USB adapter** is the ideal solution for the wireless expansion of your IT infrastructure. With the modern **Bluetooth 5.3 standard**, it offers a **particularly reliable, energy-efficient connection with a range of up to 20 meters** - perfect for modern offices, system houses or service operations.

Thanks to the integrated **Realtek chipset**, the adapter is **highly compatible and supports various Bluetooth profiles for audio, data transmission and networks (including A2DP, PAN, HFP)**. This means that Bluetooth printers, scanners, headsets, keyboards or smartphones can be easily integrated into your environment.

Installation is extremely simple: the adapter is connected via USB-A and works completely driver-free under Windows 8.1, 10 and 11. Backwards compatibility with older Bluetooth versions ensures maximum flexibility in mixed environments.

Whether **as a retrofit solution** for desktop systems **or as a practical extension** for mobile workstations, this adapter ensures that your devices communicate seamlessly with each other.

- Chipset: Realtek
- Interface: USB-A
- Frequency range: 2.4 GHz (2402-2480 MHz)
