INLINE® USB FINGERPRINT SCANNER WITH HUB

Windows Hello compatible 1.5 m

- **Secure login without a password:** The capacitive sensor supports Windows Hello and enables fast, local authentication.
- **Integrated USB hub:** With one additional USB-A and one USB-C port, maximum connectivity is maintained even when the port is occupied.
- **Plug-and-play under Windows:** The fingerprint scanner is automatically recognized—no driver installation necessary.
- **Highest data security:** Fingerprint data remains stored in the Windows operating system and never leaves the device.
- **Flexible workplace integration:** Thanks to a 1.5 m permanently installed USB-A cable and included USB-C adapter, it is also suitable for remote connection points.

The InLine® USB fingerprint scanner with integrated USB hub is the ideal solution for anyone who values convenient and secure user login under Windows 10 or 11. With Windows Hello support, the capacitive sensor enables fast and reliable authentication – without a password.

Thanks to the integrated USB hub with one USB-A and one USB-C port, other peripheral devices such as a mouse, keyboard, or external storage media can still be connected even when the computer‘s ports are occupied. The device is particularly user-friendly: it connects via USB and is automatically recognized by Windows. Manual driver installation is not required.

Security is a top priority: biometric data is stored exclusively locally in the operating system (memory on host) and not on the device itself. This meets the highest data protection requirements – ideal for professional use in companies, government agencies, or educational institutions.

With its robust design, 1.5 m long, permanently integrated USB cable, and compact format, the fingerprint scanner can be flexibly integrated into a wide variety of working environments. Setup is quick and intuitive via the Windows settings. Up to 10 fingerprints can be stored per user profile.

The InLine® fingerprint scanner with hub is a well-designed solution for modern Windows workstations where security, convenience, and connectivity are equally important.

- **Sensor resolution:** 508 dpi
- **Active sensor area:** 14.9 x 14.9 mm
- **Recognition angle:** 360°
- **Matching speed:** approx. 50 ms
- **False acceptance rate (FAR):** < 1/50,000
- **False rejection rate (FRR):** < 2%
- **Maximum number of fingers:** 10 per user profile
- **USB hub standard:** USB 3.2 Gen.1 (max. 5Gb/s)
- **USB 3.2 Gen.2 adapter:** USB Type-C plug USB Type A socket
- **Power supply:** 5 V USB, 12–15 mA
- **ESD protection:** ±15 kV (air), ±8 kV (contact)
- **Operating temperature:** 10 °C to 45 °C
- **Storage temperature:** -20 °C to 60 °C
- **Maximum humidity:** 90%, non-condensing
- **Supported operating systems:** Windows 10/11 (32/64 bit)

Technical Data	
Fingerprint profiles:	10
Recognition time (fingerprint):	50 ms
Special feature:	Wired
System requirements:	Windows 10/11 (32/64 Bit)
USB version:	USB 3.2

Item No.	Colour	EAN
41360K	Silver	4043718348084
41360S	Black	4043718348121
